Academic Program and Course Description Guide

2025-2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

To change the face of pharmacy through innovations that improves health

2. Program Mission

To advance the precise, safe, and effective use of medicines to improve health through excellence in patient care, education, research, and public service

3. Program Objectives

1. Contribute leadership at the local, national levels to fulfill the mission and visions of the department, faculty, university and profession.
2. Improve the health and well-being of patients by facilitating and providing safe and effective medication use, and by identifying, examining and eliminating barriers to optimal medication use.
3. Advance the role of pharmacy and pharmacists in improving the public health and enhancing the quality of human life through education and training, clinical preventive services, and community-based health promotion and disease prevention activities.
4. Providing education to students in various aspects of pharmacy practice, utilizing the principles of pharmaceutical care, problem-based learning and critical thinking that all together enable them to acquire in-depth expertise in pharmaceutical, social/economic management and in related sciences in order to function as practitioners and scientists.
5. Serving the community by providing pharmaceutical care activities that lead to improvements in healthcare delivery and enhances health outcomes.
6. Contributing to the profession of pharmacy by participation in leadership roles in pharmaceutical organization and community programs

4. Program Accreditation

Try Getting it.

5. Other external influences

6. Program Structure				
Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
	8	21		

Department Requirements				
Summer Training	1	1		Satisfied
Other				

* This can include notes whether the course is basic or optional.

7. Program Description				
Year/Level	Course Code	Course Name	Credit Hours	
			theoretical	practical
Third stage (one course)	PHC326	Pharmacy ethics	One hour weekly	
Fourth stage (one course)	PHC426	Communication	Two hours weekly	
Fourth stage course	PHC413 , PHC423	pharmacy Clinical	weekly hours Two	Two for each course hours
Fifth stage (two course)	PHC513 PHC522	Applied Therapeutic	Two hours second course Three hours first course	
Fifth stage (One course)	PHC523	Therapeutic drug monitoring	Two hours weekly	Two hours weekly
Fifth stage (One course)	PHC521	pharmaeconomy	Two hours weekly	
Fifth stage (One course)	PHC515	Hospital training		Two hours weekly

8. Expected learning outcomes of the program	
Knowledge	
Learning Outcomes 1	1-Studying the different types of simple diseases and how to deal with them in the pharmacy
	2- Studying different diseases (causes, symptoms, diagnosis and treatment)
	3- Study the communication skills necessary for the work of the pharmacist

	4- Studying the ethics of the pharmacy profession
	5- Studying the foundations of the pharmaceutical economy
	6- Studying the methods of calculating the concentrations of dangerous drugs in the blood and how to deal with them
Skills	
	Communication skills with patients
	The skill of drug education for patients
	The skill of extracting the required information from its approved sources
Ethics	
	-Thinking skills through translating, analyzing, evaluating and extracting ideas
	- Cultivating ethical values for the correct treatment of patients

9. Teaching and Learning Strategies

- By giving theoretical, practical and practical lectures and assigning small groups create educational scenarios
- Simulate the work of a pharmacist in pharmacies

10. Evaluation methods

Reviewing personal thinking skills, presenting results, and using new methods of learning

11. Faculty						
Faculty Members						
Academic Rank	Specialization		Special Requirements/Skills (if applicable)		Number of the teaching staff	
	General	Special			Staff	Lecturer
Le. Dr. Saba hameed Email: dr.saba.hameed@nahrainiv.edu.iq	Sciences in pharmacy	Clinical pharmacy	Anti-oxidant and aging process		1	
Ass. Le. Mohammed murtaadha hussein EMAIL: Muhammed.murtadha@nahrainuniv.edu.iq	Sciences in pharmacy	Clinical pharmacy	Statistics analysis of clinical scientific research		2	1

Professional Development
Mentoring new faculty members
There are certain units within the program for personal development, giving students opportunities and encouraging them to engage in Professionally relevant qualifications that allow students to reflect on their own professional development also, Participation in seminars and workshops presented by the branch
Professional development of faculty members
Participation in seminars and workshops presented by the branch such as Anti-oxidant and aging process Statistics analysis of clinical scientific research

12. Acceptance Criterion

The student is accepted into the college within the central admission of the Ministry of Higher Education and Scientific Research.

13. The most important sources of information about the program

The World Health Organization and various scientific sources from books and the Internet
And the Committee of Deans of Colleges of Pharmacy in Iraq.

14. Program Development Plan

In the process of obtaining approvals

There are certain units within the program for personal development, giving students opportunities and encouraging them to engage in Professionally relevant qualifications that allow students to reflect on their own professional developme

9. Teaching and Learning Strategies

Strategy

Learning Outcomes, Teaching, Learning and Assessment Method

10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Define of clinical and community pharmacy with drug distribution patients' education	Introduction to clinical and community pharmacy: drug distribution system, principles of patient education	Ppt	Quiz
2	2	Management of pediatric and geriatric	Clinical pharmacy practice in neonate pediatric and geriatric	Ppt	Report
3	2	Management of Cough, common cold and allergic rhinitis	Clinical pharmacy in respiratory system care: Cough common cold and allergic rhinitis.	Ppt	Quiz
4	2	Management of diarrhea, constipation, GERD and hemorrhoid.	Clinical pharmacy in GIT system care: diarrhea, constipation, GERD and hemorrhoid.		Report
5	2	Oral thrush and head lice treatment	Pediatric care practice: oral thrush and head lice.	Ppt	Quiz
6	2	Pharmaceutical care of acne, scabies, psoriasis, hair loss and athletes foot.	Pharmacy care in skin conditions: acne, scabies, psoriasis, hair loss and athletes foot.	Ppt	Report
7	2	Management of cystitis and vaginal thrush and emergency contraceptive techniques	Women health care: cystitis and vaginal thrush, primary dysmenorrhea and emergency contraceptive techniques	Ppt	Quiz
8	2	Management of headache, insomnia, and motions sickness.	Pharmacy care in CNS related problems: headache, insomnia, and motions sickness.	Ppt	Report
9	2	Eye disorders management	Pharmacy care in eye disorders.	Ppt	Quiz
10	2	ENT conditions treatment	Pharmacy care in ENT conditions.	Ppt	Quiz
11	1	mouth ulcer and mouth thrush treatment	Pharmacy care in oral hygiene: mouth ulcer and mouth thrush.	Ppt	Report
12	2	Controlling of weight and obesity treatment.	Pharmacy care in obesity and body weight control.	Ppt	Quiz
13	1	Management of musculoskeletal disorders.	Pharmacy care in management pain and musculoskeletal disorders.	Ppt	Report
14	2	Advice and treatment of smoker persons	Nicotine replacement therapy (NRT).	Ppt	Quiz

15	1	Poisoning management.	Clinical pharmacy practice in poisoning.	Ppt	Report
16	2	Medicines used for eczema and dermatitis; dandruff.	Clinical pharmacy practice in eczema and dermatitis; dandruff.	Ppt	Quiz
17	2	Management of skin infection	Clinical pharmacy in fungal skin infection; cold sore, corns and callus	Ppt	Quiz
					Final exam

1. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

Midterm exam 15 degree + 5 degree daily preparation, daily oral, monthly, or written exams, reports

Laboratory degree= 20 degree

Final exam = 60 degree

2. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Roger Walker, Clive Edwards (eds) Clinical Pharmacy & Therapeutics
Main references (sources)	Roger Walker, Clive Edwards (eds) Clinical Pharmacy & Therapeutics
Recommended books and references (scientific journals, reports...)	Articles
Electronic References, Websites	World health organization FDA (U.S. Food and Drug Administration)

Course Description Form

3. Course Name: Practical clinical pharmacy I					
4. Course Code: PHC413					
5. Semester / Year: Semester 1\ forth years					
6. Description Preparation Date: 2024					
7. Available Attendance Forms: Course system					
8. Number of Credit Hours (Total) / Number of Units (Total): 2					
9. Course administrator's name (mention all, if more than one name)					
Name: Ass. Le. Mohammed murtaadha hussein Email: Muhammed.murtadha@nahrainuniv.edu.iq NAME: ASS. Le. Ahmed mohammed EMAIL: ahmed.mohammed@nahrainuniv.edu.iq Name : saba hameed majeed Email: dr.saba.hameed@nahrainuniv.edu.iq					
10. Course Objectives					
Course Objectives To introduce students to the philosophy of pharmaceutical care and the skills and attitudes necessary to develop a pharmaceutical care practice. and To emphasize the active and collaborative learning activities to provide students with problem solving skills, communication skills, ethical standard of conduct and responsible attitude toward patient care as well as a sound scientific knowledge base					
11. Teaching and Learning Strategies					
Strategy	Learning Outcomes, Teaching ,Learning and Assessment Method				
12. Course Structure					
Week	Hours	Required	Unit or subject name	Learning method	Evaluation method

		Learning Outcomes			
1	2	Learning how to communicate with patients	Communication with patients	Ppt	Quiz
2	2	Management of cough	Respiratory system in practice (part II): cough	Ppt	Report
3	2	Management of common cold	Respiratory system in practice (part II): common cold.	Ppt	Quiz
4	2	Constipation management	GIT system practice (part I): constipation.	Ppt	Report
5	2	Diarrhea management	GIT system practice (part II): diarrhea and IBS	Ppt	Quiz
6	2	GERD treatment	GIT system practice (part III): GERD	Ppt	Report
7	2	Management of hair loss, cold sore athlete's foot	Skin conditions in practice (part I): hair loss, cold sore and athlete's foot	Ppt	Quiz
8	2	Dandruff and eczema treatment	Skin conditions in practice (part II): dandruff and eczema.	Ppt	Report
					Med term exam
9	2	Wart and scabies treatment	Skin conditions in practice (part III): warts and scabies.	Ppt	Quiz
10	2	Principles of pharmacy practice part I	Collective practice number I.	Ppt	Quiz
11	1	oral thrush, colic, pinworm and napkin rash. Treatment	Pediatrics in practice: oral thrush, colic, pinworm and napkin rash.	Ppt	Report
12	2	Eye disorder treatment	Minor eye disorder in practice.	Ppt	Quiz
13	2	Women health education	Women health in practice.	Ppt	Report
14	2	Management of Insomnia and motion sickness	Insomnia and motion sickness in practice.	Ppt	Quiz
15	2	Principles of pharmacy practice part II	Collective practice number II	Ppt	Report

13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

Laboratory degree= 20 degree(10 degree final +10 degree from- daily preparation, daily oral, monthly, or written exams, reports

6	2	Determining what patients understand about their medications, how they are taking their medications	Interviewing and assessment.	ppt	Report
7	2	Advices on therapeutic medication regimen	Helping patients to manage therapeutic regimens.	ppt	Quiz.
8	2	Counseling scenario	Patient counseling; counseling check list point-by-point discussion; 2 counseling scenario	ppt	Quiz
					Med term exam
9	2	Medication safety	Medication safety and communication skills.	ppt	
10		special communication needs (older adults; persons with hearing, sight)	Strategies to meet specific needs	Ppt	
11	2	Understanding the Cognitive Developmental Level of a Child	Communicating with children and elderly about medications	Ppt	
12	2	enhancing	Communication skills	Ppt	

		relationships between pharmacists and other health care providers	and inter-professional collaboration.		
13	2	use of electronic means of communication	Electronic communication in healthcare	Ppt	
14	2	how an ethical framework is often needed to guide their behavior when dealing with patients	Ethical behavior when communicating with patients	Ppt	
15	1	Patients review information about their destinations and itinerary and consider potential self-care options	Travel health	Ppt	
16	1	Medical insurance	Health insurance	Ppt	
					Final exam

58. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc
Midterm exam 25degree + 5-degree daily preparation, daily oral, monthly, or written exams, reports
Final exam = 70 degree

59. Learning and Teaching Resources

Required textbooks (curricular books, if any)	1-Robert S. Beardsley, (ed.); Communication Skill Pharmacy Practice
Main references (sources)	1-Robert S. Beardsley, (ed.); Communication Skill Pharmacy Practice
Recommended books and references (scientific journals, reports...)	Articles
Electronic References, Websites	World health organization

Course Description Form

60.	Course Name: Theory Clinical pharmacy II	
61.	Course Code: PHC423	
62.	Semester / Year: Semester 2\ fourth year	
63.	Description Preparation Date: 2024	
64.	Available Attendance Forms: Course system	
65.	Number of Credit Hours (Total) / Number of Units (Total): Theory 2	
66.	Course administrator's name (mention all, if more than one name)	
Name: Le. Dr. Saba hameed Email: dr.saba.hameed@nahrainiv.edu.iq Name: Ass. Le. Mohammed murtaadha hussein Email: Muhammed.murtadha@nahrainuniv.edu.iq Name: Muhanad abdulsahib Email: Muhanad.abdulsahib@nahrainuniv.edu.iq		
67.	Course Objectives	
Course Objectives	1-To develop an understanding and acceptance of clinical pharmacy and pharmaceutical care as concepts and application 2-To enable the student for ensure safe and effective use of medications in disease state as a part of medical team. 3-This course will focus on the philosophy and application of clinical pharmacy services in hospitals, through which students will be exposed to general medical problems (disease state and to be actively involved in different aspects of therapy of different disease	
68.	Teaching and Learning Strategies	
Strategy	-By giving theoretical, practical and practical lectures and assigning small groups to create educational scenarios -Simulate the work of a pharmacist in pharmacies	

69. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
١	2	Anemia types and management	Hematologic disorders: Anemia and sickle cell disease.	ppt	Quiz
٢	2	Treatment of hypertension	Hypertension.	ppt	
٣	2	Management of IHD	Ischemic heart diseases	ppt	Quiz
٤	2	Management of HF	Heart failure.	ppt	Quiz
٥	1	Treatment of Peripheral vascular diseases.	Peripheral vascular diseases	ppt	Quiz
٦	2	Asthma management	Asthma.	ppt	Quiz
٧	1	Management of COPD	Chronic obstructive pulmonary disease	ppt	Quiz
٨	2	Management of DKA	Diabetes mellitus & Diabetic ketoacidosis (DKA)	ppt	
					Mid term exam
٩	2	Management of peptic ulcer	Peptic ulcer disease	ppt	Quiz
١٠	1	Treatment of T.B	Tuberculosis	ppt	Report
١٠	1	Types and treatment of Infective meningitis	Infective meningitis	ppt	Quiz
1١	2	Treatment of upper and lower RTI	Respiratory tract infections	ppt	Report
1٢	1	Management of GIT infection	GIT infections	ppt	Quiz
1٢	1	Management of hyperuricemia	Gout and hyperuricemia	ppt	Report
1٣	2	Treatment of RA and OA	Rheumatoid arthritis (RA) and osteoarthritis (OA)	ppt	Quiz
1٤	1	Management of osteoporosis	Osteoporosis and other metabolic bone disease	Ppt	Quiz
1٥	1	Management of endocarditis	Infectious Endocarditis	Ppt	Report
١٥	1	Management of UTI	Urinary tract infection (UTI)	Ppt	Quiz

					Final exam
--	--	--	--	--	------------

70. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

Midterm exam 15degree + 5 degree daily preparation, daily oral, monthly, or written exams, reports

Laboratory degree= 20 degree

Final exam = 60 degree

71. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Roger Walker, Clive Edwards (eds), Clin Pharmacy & Therapeutics
Main references (sources)	Roger Walker, Clive Edwards (eds), Clin Pharmacy & Therapeutics
Recommended books and references (scientific journals, reports...)	Articles
Electronic References, Websites	World health organization

Course Description Form

72.	Course Name: Practical Clinical pharmacy II
73.	Course Code: PHC423
74.	Semester / Year: Semester 2\ fourth years
75.	Description Preparation Date: 2024
76.Available Attendance Forms: Course system	
77.Number of Credit Hours (Total) / Number of Units (Total)	
78.	Course administrator's name (mention all, if more than one name)
NAME: ASS. Le. Ahmed mohammed EMAIL: ahmed.mohammed@nahrainuniv.edu.iq Name: Hayder aljawadi	
79.	Course Objectives
Course Objectives	1– The second part progressively build toward more self–directed/ self–managed learning activities 2–helping the student to deal with increasingly complex problems and issues in patient care and practice management. 3–Various teaching and learning methods are used throughout the series including problem– dispensing, patients counseling, drug administration techniques) both to enhance interest and to ensure adequate practice to master important concepts and skills
80.	Teaching and Learning Strategies
Strategy	-the blackboard -PowerPoint slides -learning (social networking sites: the branch has a spec channel that includes video lectures

81. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Build up communication skill with medical staff and patient	Communication with physician and patient counseling.	ppt	Quiz
2	2	Management of anemia	Drugs for anemia and related disorders.	ppt	Quiz
3	2	Treatment of cardiovascular disease part I	Cardiovascular drugs in practice part I.	ppt	Report
4	2	Treatment of cardiovascular disease part II	Cardiovascular drugs in practice part II.	ppt	Quiz
5	2	Treatment of cardiovascular disease part III	Cardiovascular drug in practice part III.	ppt	Quiz
6	2	Management of asthma and COPD	Drugs for asthma and COPD in practice.	ppt	Report
7	2	Uses and types of antibiotics part I	Antimicrobial drugs in practice part I.	ppt	Quiz.
					Med term exam
8	2	Uses and types of antibiotics part II	Antimicrobial drugs in practice part II.	Ppt	Quiz
9	2	Uses and types of antibiotics part III	Antimicrobial drugs in practice part III.	ppt	Report
10	2	Pharmacy practice knowledge part I	Collective practice number I.	Ppt	Quiz
					Final exam

82. Course Evaluation

Laboratory degree= 20 degree(10 degree final +10 degree from- daily preparation, daily oral, monthly, or written exams, reports

83. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Roger Walker, Clive Edwards (ed) Clinical Pharmacy & Therapeutics
Main references (sources)	: Roger Walker, Clive Edwards (ed) Clinical Pharmacy & Therapeutics
Recommended books and references (scientific journals, reports...)	Articles
Electronic References, Websites	World health organization FDA (U.S. Food and Drug Administration)

Course Description Form

84.	Course Name: Theory Therapeutic drugs monitoring
85.	Course Code: PHC523
86.	Semester / Year: Semester 2\ fifth years
87.	Description Preparation Date: 2024
88.Available Attendance Forms: course system	
89.Number of Credit Hours (Total) / Number of Units (Total): theory 2	
90.	Course administrator's name (mention all, if more than one name)
Name: Muhanad abdulsahib Email: Muhanad.abdulsahib@nahrainuniv.edu.iq	
91.	Course Objectives
Course Objectives	1– The present course enables students to learn how to select the most appropriate drugs for an individual, recommend the dosage regimen that is most likely to achieve the desired therapeutic response with minimum risk of toxic effects 2– Monitor the effect of a drug, if appropriate. 3– The principles of clinical pharmacokinetics will be applied, which are fundamental to the current practice of clinical pharmacy and may be more significant as pharmacists expand their roles into prescribing
92. Teaching and Learning Strategies	
Strategy	By giving theoretical, practical and practical lectures and assigning small groups to create educational scenarios -Simulate the work of a pharmacist in pharmacies

93. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	study of the absorption, distribution, Metabolism, and excretion of drugs	Review of basic pharmacokinetic (PK) and pharmacodynamics (PD)	ppt	Quiz
2	3	Clinical pharmacokinetic dosage calculations are conducted using the easiest possible equations and methods.	Clinical PK equations and calculations	ppt	Report
3	3	change the pharmacokinetics of the drug and warrant dosage modification	Clinical PK in special population and cases	ppt	Quiz
4	2	Study The conventional method of dosing aminoglycoside antibiotics	Clinical PK/PD for Aminoglycosides	ppt	Report
5	2	Study conc., Distribution steady state of vancomycin	clinical PK/PD for Vancomycin	ppt	Quiz
6	2	Study Digoxin serum concentrations and PK in different dosage form	Clinical PK/PD for Digoxin	ppt	Report
					Med term exam
7	3	Study phenytoin serum concentrations and PK in different dosage form	Clinical PK/PD for Phenytoin	ppt	Quiz
8	3	Study anticonvulsants serum concentrations and PK	Clinical PK/PD for other Anticonvulsants (e.g., Carbamazepine, Valproic Acid, Phenobarbitone/Primidone, Ethosuxsimide)	ppt	Report
9	2	Study conc., Distribution steady state of theophylline	Clinical PK/PD for Theophylline	ppt	Quiz
10	2	Study immunosuppressants serum concentrations	Clinical PK/PD for Immunosuppressants (e.g., Cyclosporine,		Report

		and PK	Tacrolimus		
11	2	Study cardiovascular agents serum concentrations and PK	Clinical PK/PD for other Cardiovascular agents (e.g., Lidocaine, Procainamide/N-Acetyl Procainamide	ppt	Quiz
12	4	Study lithium anticancer and anticoagulants serum concentrations and PK	Clinical PK/PD of other drugs (e.g., Lithium), Anticancer agents, and Anticoagulants	ppt	Report
					Final exam

94. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc
Midterm exam 15 degree + 5 degree daily preparation, daily oral, monthly, or written exams, reports
Laboratory degree= 20 degree
Final exam = 60 degree

95. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Applied Clinical Pharmacokinetics, Second Edition, 2008 by Larry A. Bauer. Additional references include but not limited to the following: Clinical Pharmacokinetics Concepts and Applications, Third Edition, 1995 by Malcolm Rowland and Thomas Tozer;
Main references (sources)	Applied Clinical Pharmacokinetics, Second Edition, 2008 by Larry A. Bauer. Additional references include but not limited to the following: Clinical Pharmacokinetics Concepts and Applications, Third Edition, 1995 by Malcolm Rowland and Thomas Tozer;
Recommended books and references (scientific journals, reports...)	Articles
Electronic References, Websites	World health organization FDA (U.S. Food and Drug Administration)

Course Description Form

96.	Course Name: Practical Therapeutic drugs monitoring				
97.	Course Code: PHC523				
98.	Semester / Year: semester 2\ fifth years				
99.	Description Preparation Date: 2024				
100.	Available Attendance Forms: course system				
101. 1	Number of Credit Hours (Total) / Number of Units (Total): laboratory				
102.	Course administrator's name (mention all, if more than one name)				
Name: Ass. Le. Mohammed murtaadha Hussein Email: Muhammed.murtadha@nahrainuniv.edu.iq Name : Ass. Le. aisha muthana Email : aisha.muthana@nahrainuniv.edu.iq					
103.	Course Objectives				
Course Objectives		1-Improve the practice of students in the application of pharmacokinetics in clinical setting 2-Training in dose individualization in spec patients' groups			
104.	Teaching and Learning Strategies				
Strategy	-By giving theoretical, practical and practical lectures a assigning small groups to create educational scenarios -Simulate the work of a pharmacist in pharmacies				
105. Course Structure					
Week	Hours	Required Learning	Unit or subject	Learning	Evaluation

		Outcomes	name	method	method
1	2	Food effect on drug absorption	Effects of food on drug disposition	Ppt	Quiz
2	2	Doses in elderly patients	Dosing of drugs in the elderly	Ppt	Report
3	4	Doses in obese patients	Individualization of the dosage for obese patients	Ppt	Quiz
4	4	Pediatric A,D,M,E	Pediatric pharmacokinetics	Ppt	Report
5	2	Training	Review and tutorial	Ppt	Quiz
6	2	Doses of anticancer chemotherapy	Dose individualization for high dose anti-cancer chemotherapy	Ppt	Report
7	4	Carbamazepine TDM	Therapeutic drug monitoring of carbamazepine	Ppt	Quiz
8	4	Cyclosporine TDM	Therapeutic drug monitoring of cyclosporine	Ppt	Report
9	4	Psychotropic medicines TDM	Therapeutic drug monitoring of psychotropic agents	Ppt	Quiz
10	2	Training	Review and tutorial	Ppt	
					Final exam

106. Course Evaluation

Laboratory degree= 20 degree (10 degree final +10 degree from- daily preparation, daily oral, monthly, or written exams, reports

107. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Applied Clinical Pharmacokinetics Second Edition, 2008 by Larry A. Bauer.

Course Description Form

108.	Course Name: Pharmacoeconomy
109.	Course Code: PHC521
110.	Semester / Year: Semester 2\ fifth years
111.	Description Preparation Date: 2024
112.	Available Attendance Forms: Course system
113.	Number of Credit Hours (Total) / Number of Units (Total): Theory 2
114.	Course administrator's name (mention all, if more than one name)
Name: Ass. Le. Mohammed murtaadha Hussein Email: Muhammed.murtadha@nahrainuniv.edu.iq Name: Le. Dr. Saba hameed Email: dr.saba.hameed@nahrainiv.edu.iq	
115.	Course Objectives
Course Objectives	1- The present course will give students basic understanding of the tools needed to asses the costs and outcomes medications and pharmaceutical care services 2- It will enable participants to evaluate pharmacoeconomic and quality of life literat for the purpose of rational decision-making. 3- Students will be exposed to the dru focused approaches to pharmacoecono research and the fundamentals of quality-of-research.
116.	Teaching and Learning Strategies

Strategy	-By giving theoretical, practical and practical lectures and assigning small groups to create educational scenarios -Simulate the work of a pharmacist in pharmacies
-----------------	---

117. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	assessment of economic evaluation of drug used in care plane and other medical services	Course overview & basic principle of pharmacoeconomics	ppt	Quiz
2	6	Evaluation of cost analysis	Cost analysis	ppt	Report
3	2	Evaluation of Cost effectiveness analyses (CEA)	Cost effectiveness analyses (CEA).	ppt	Quiz
4	2	Evaluation of Cost utility analyses (CUA).	Cost utility analyses (CUA).	ppt	Report
5	2	E Cost-benefit analysis (CBA)valuation of	Cost-benefit analysis (CBA)	ppt	Quiz
					Med term exam
6	2	Evaluation of Critical assessment of economic evaluation	Critical assessment of economic evaluation	Ppt	Report
7	2	Evaluation of Drug-focused versus disease-focused frame work for Conducting pharmacoeconomic analyses.	Drug-focused versus disease-focused frame work for Conducting pharmacoeconomic analyses.	ppt	Quiz
8	2	Evaluation of epidemiology	Introduction to epidemiology.	ppt	Quiz
9	2		Project presentation.	ppt	Report
10	2		Project presentation.		Report
					Final exam

118. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily

preparation, daily oral, monthly, or written exams, reports etc Midterm exam 25degree + 5-degree daily preparation, daily oral, monthly, or written exams, reports Final exam = 70 degree	
119. Learning and Teaching Resources	
Required textbooks (curricular books, if any)	: Bootman JL, Townsend RJ, McGhan WF, (Eds.), Principles of Pharmacoeconomics, 2nd ed., Harvey Whitney Books Company, Cincinnati, Oh, latest edition
Main references (sources)	: Bootman JL, Townsend RJ, McGhan WF, (Eds.), Principles of Pharmacoeconomics, 2nd ed., Harvey Whitney Books Company, Cincinnati, Oh, latest edition
